

ELECTROCOMPANIET
If music *really* matters™

AVAILABLE NOW!

Prelude PD 1 DAC

The new Prelude PD 1 DAC from Electrocompaniet is our answer to the growing need for a user friendly DAC with USB interface.

With our new DAC you can listen to the music from your CD-player, TV/Satelite tuner, iPod or PC / MAC the way it was meant to be. The sound from all your digital sources is improved and the listening experience is enhanced.

The Prelude PD-1 is easy to install and with the remote control you can change between the sources and adjust the volume - perfect if you connect the DAC to active speakers or directly to a power amplifier.

For wireless streaming from your PC/MAC you can choose to add our USB Music Streamer. This way you do not need any cables between your computer and the DAC.

Technical specifications:

- No. of channels: 2
- Output impedance: 100 ohm
- Output level: 3.4 Vrms
- Noise floor (20 - 20 kHz) : < - 140 dB
- Frequency response: 1 - 48 kHz
- THD + N: < 0.003%
- Upsampling rate: 192 kHz, 24bit
- Digital/Analog conversion: 192 kHz, 24bit
- Input sampling rate supported:
 - SPDIF 192 kHz, 24 bit
 - USB 48 kHz, 16 bit
 - RF Link 48 kHz, 16 bit
- Audio Outputs:
 - Stereo balanced line out (XLR)
 - Stereo single-ended line out (RCA)
- Digital Inputs: 2 x SPDIF Coaxial, 1 x SPDIF TOSLink, 1 x USB Type B, 1 x RF Link
- Weight 4,3 Kg

All measurements are made at 120V/240V//50Hz/60 Hz
